III. ANALYSIS METHODOLOGY

Performed an 'Advanced Logical Acquisition' to extract encrypted app data. Verified the file system structure for any unauthorized cloud-syncing apps.

IV. OBSERVATIONS & LOGS

Discovered an encrypted messaging app (Signal) containing chats about "Project ForenChain" source code. Recovered deleted photos of sensitive server room schematics.

V. FINAL DETERMINATION

The tablet was used as a portable storage device for stolen intellectual property. All extracted metadata and system logs have been hashed to ForenChain.

This report is cryptographically hashed and securely anchored within the ForenChain blockchain system. Any unauthorized modification invalidates its integrity and legal admissibility.
